

5th Episcopal District Annual Conference

In-Person COVID-19 Policy

As concerns regarding the coronavirus continue to increase with a new variant on the rise, we should remember to not react out of fear. Instead, let us use our faith and wisdom, to work together so the work of the Lord continues during these unprecedented times.

In that spirit, and under the direction of our own, Bishop Clement W. Fugh, the following policies and guidelines are to be implemented to help keep you and others healthy and safe during the annual conference series and Planning Meeting.

Policy:

- All in-person attendees must provide a negative COVID test which must be taken 72 hours or less before arrival at the conference.
- If an attendee is not able to get a covid test within 72 hours of arrival to the annual conference, a test will be available to them upon their arrival to the annual conference. Please be prepared to wait at least 15 minutes for results.
- All In-person attendees must also present proof of vaccination and booster to enter the conference. All registered attendees will receive a wristband also signifying that your proof of vaccination has been received and verified. This wristband must be worn to enter all events. If you do not have a wristband, please be prepared to present proof of vaccination to the conference staff.
- Please maintain social distancing and always wear a mask while indoors.

We thank you for your cooperation.
